

A quick guide
on how to **get more**
from your business.

Smart services and solutions for inter-operator billing and revenue assurance.

At Basset, our main ambition is to help you get more from your business by offering smart services and solutions for inter-operator billing and revenue assurance. Our solutions make sure you get paid for every transaction in your network without loss or attempted fraud. And our services portfolio is designed specifically for operators, helping you focus on your core business.

— Why Basset can give you more —

We built our business delivering solutions to the challengers of the telecom market. Our collaboration with these competitive network operators has shaped the way we develop, design and deliver our solutions.

- We are committed to adding more value to your business. Our work with hundreds of operations all around the world has taught us a lot about this industry.
- We create advanced solutions – and we make them easy to use. It is important you can start using them right away.
- Thanks to our smart technology, we can easily adapt our solutions to meet your business requirements and operational conditions. No code changes. No problems.
- We have a service delivery model that will help you work smarter. And it will also save you time and money.
- Our solutions are constantly evolving – and we listen closely to feedback from our customers. You can be sure your systems will fulfill your needs both now and in the future.

How to get more from your business ►

Boost your revenue

Basset RevUp is a solution suite that will help you get more from your interconnect and roaming billing business. It is designed to increase your revenue and control your costs from day one. The solutions are flexible and can easily be adapted to fit your unique business requirements and changing operational conditions.

— Basset RevUp includes

RevUp Interconnect – eliminates revenue leakage by ensuring every call is captured, rated and invoiced correctly – regardless of which type of network originates and terminates the event.

RevUp Roaming – one of the world's most well proven roaming billing solutions. It will give you control over your roaming traffic, increase visibility and maximize your profit.

Solution extensions:

RevUp Content – manage all your content partner relationships and make sure you get your fair market share.

RevUp Routing – the next step for any operator wanting to get more out of its interconnect or carrier business.

The logo consists of a blue square with a 3D effect, appearing as a box with a shadow on the bottom and right sides. The text "Basset" is in a smaller font above "RevUp", which is in a larger, bold font.

Lose less

Basset Watchdog is a complete solution suite focusing on fraud management and reconciliation – all aspects of the system are designed to avoid revenue loss. You get effective tools that will help you to continually stay one step ahead of the fraudsters, as well as to detect and prevent revenue leakages. Use Watchdog and you will get more by losing less.

— Basset Watchdog includes

Watchdog Fraud – a very powerful system and one of the most utilized solutions on the market when you want to fight – and win – the fraud battle.

Watchdog Reconciliation – an effective and very easy-to-use tool that will help you detect and prevent revenue leakages. It is a low risk investment – but the return is high.

Work smarter

Basset Services Through our extensive collaboration with telecom operators all over the world, we are familiar with the challenges you face every day. Based on our experience and our knowledge, we have created a variety of services we believe can be of great help when you need to focus on your core business.

— Basset Services includes

System Integration

Our System Integration service enables smooth deployment and gives your operation a head start. We make sure you can focus on your core business with minimal impact on your organization and your employees' valuable time.

Support Services

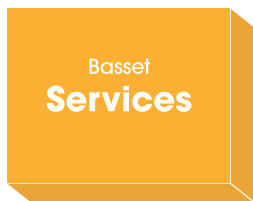

We understand you need fast and reliable technical support. That's why our System Support and Managed Services are key components of our overall offerings.

System Support We provide timely and cost-effective support for all installed products. And we make sure your solutions are always up to date.

Managed Services Place your resource-intensive IT operations under the management of our experienced specialists. By optimizing the existing resources in your organization, you can focus them on strategic areas where they can add the greatest value.

Consulting Services

Our Solution Consulting will quickly and smoothly help you adapt your systems. And our Business Consulting will provide advice on how to improve your operation, change your organization and increase your competence. We will assist in every way to help you to get more from your business.

Our footprint

— **Basset around the world** —————

Our footprint now includes more than 140 installations in 60 countries. Working with so many operators around the world has given us experience that makes us the ideal partner when you want to grow your businesses. It ensures that we understand your needs and can provide fast answers and quick actions.
